

Publications by Dr G. W. E. Milligan

MILLIGAN, G. W. E. (1974) The Behaviour of Rigid and Flexible Retaining Walls in Sand. *Ph.D. thesis*, University of Cambridge.

BRANSBY, P. L. & MILLIGAN, G. W. E. (1975) Soil deformations near cantilever sheet pile walls. *Geotechnique*, 25(2), pp 175-195.

MILLIGAN, G. W. E. & BRANSBY, P. L. (1976) Combined active and passive rotational failure of a retaining wall in sand. *Geotechnique*, 26(3), pp 473-494.

MILLIGAN, G. W. E. (1981) The use of mesh products to improve the performance of granular fill on soft ground. *Report to Netlon Ltd*. Oxford University Engineering Laboratory (OUEL) report No.1346/81, SM017/NET/81.

MILLIGAN, G. W. E. (1982) Some scale model tests to investigate the use of reinforcement to improve the performance of fill on soft soil. *Q.J.Eng.Geol.*, London. 15. pp 209-215.

MILLIGAN, G. W. E. (1982) Preconsolidation and slope stability in weak alluvial soil in the Middle East. OUEL report No.1446/82, SM029/GOL/82.

MILLIGAN, G. W. E. (1982) Some tests on the relative effectiveness of grid reinforcements for granular soils. OUEL report No.1441/82, SM030/LAB/82.

MILLIGAN, G. W. E. (1983) Soil deformations near anchored sheet pile walls. *Geotechnique*, 33(1), pp 41-55.

JEWELL, R. A., MILLIGAN, G. W. E., SARSBY, R. W. & DUBOIS, D. (1984) Interaction between soil and geogrids. *Symposium on Polymer Grid Reinforcement in Civil Engineering*. I.C.E. London.

MILLIGAN, G. W. E. & LOVE, J. P. (1984) Model testing of geogrids under an aggregate layer on soft ground. *Symposium on Polymer Grid Reinforcement in Civil Engineering*. I.C.E. London.

MILLIGAN, G. W. E. (1984) Soil deformations behind retaining walls. *3rd Int. Conf. on Ground Movements and Structures*. Cardiff.

DYER, M. R. & MILLIGAN, G. W. E. (1984) A photoelastic investigation of the interaction of a cohesionless soil with reinforcement placed at different orientations. *Int. Conf. on In Situ Soil and Rock Reinforcement*. Paris.

MILLIGAN, G. W. E. & HOULSBY, G. T. (1984) Basic Soil Mechanics. *Butterworths*.

MILLIGAN, G. W. E. (1986) Research on in situ testing of soils. *Report to SERC*. OUEL report No.1634/86, SM067/GWEM/86

GEOTECHNICAL CONSULTING GROUP

LOVE, J. P., BURD, H. J., MILLIGAN, G. W. E. & HOULSBY, G. T. (1986) Analytical and model studies of reinforcement of a layer of granular fill on a soft clay subgrade. *OUEL report* No.1660/86.

MILLIGAN, G. W. E. (1986) Current research in pipe jacking. *Proc. Pipe Jacking Conference*, PJA, London.

MILLIGAN, G. W. E., FANNIN, R. J. & FARRAR, D. M. (1986) Model and full-scale tests of granular layers reinforced with a geogrid. *3rd Int. Conf. on Geotextiles*, Vol.I. Vienna.

PALMEIRA, E. M. & MILLIGAN, G. W. E. (1987) Scale and other factors affecting the results of pull-out tests of grids buried in sand. *OUEL report* No.1678/87, SM 070/87.

MILLIGAN, G. W. E. & PALMEIRA, E. M. (1987) Prediction of bond between soil and reinforcement. *Int.Symp. on Prediction and Performance in Geotechnical Engineering*, Calgary.

LOVE, J. P., BURD, H. J., MILLIGAN, G. W. E. & HOULSBY, G. T. (1987) Analytical and model studies of reinforcement of a layer of granular fill on a soft clay subgrade. *Can. Geotech. J.* 24, pp 611-622.

MILLIGAN, G. W. E. (1988) Geotextile research and the IGS. *Ground Engineering*, 21(2), Mar 1988, pp 2-6.

PALMEIRA, E. M. & MILLIGAN, G. W. E., (1988) A large-scale apparatus for the study of soil reinforcement interaction. *Proc. Int. Symp. on New Techniques in Laboratory and Field Testing in Geotechnical Engineering*, COPPE/UFRJ, Rio de Janeiro, Brazil, May 1988, pp 403-414.

MILLIGAN, G. W. E. & RIPLEY, K. J. (1989) Packing materials in jacked pipe joints. *Developments Underground, No Dig 89*, *Proc. 4th Int. Conf. on Trenchless Construction*, Thomas Telford, London.

JEWELL, R. A. & MILLIGAN, G. W. E. (1989) Deformation calculations for reinforced soil walls. *Proc. 13th Int. Conf. Soil Mech. and Found. Eng.*, Vol.2, pp 1257-1262. Rio de Janeiro.

PALMEIRA, E. M. & MILLIGAN, G. W. E. (1989A) Scale effects in direct shear tests on sand. *Proc. 13th Int. Conf. Soil Mech. and Found. Eng.*, Vol.1, pp 739-742. Rio de Janeiro.

PALMEIRA, E. M. & MILLIGAN, G. W. E. (1989B) Scale and other factors affecting the results of pull-out tests of grids buried in sand. *Geotechnique* 39(3), pp 511-524.

PALMEIRA, E. M. & MILLIGAN, G. W. E. (1989C) Large scale direct shear tests on reinforced soil. *Soils and Foundations*, 29(1), pp 18-30.

HOULSBY, G. T., MILLIGAN, G. W. E., JEWELL, R. A. & BURD, H. J. (1989) A new approach to the design of unpaved roads, part I. *Ground Engineering*, 22(3).

MILLIGAN, G. W. E., JEWELL, R. A., HOULSBY, G. T. & BURD, H. J. (1989) A new approach to the design of unpaved roads, part II. *Ground Engineering*, 22(6)

PEDLEY, M. J., JEWELL, R. A. & MILLIGAN, G. W. E. (1990) A large scale experimental study of soil-reinforcement interaction. *OUEL Report* No.1848/90, SM109/90.

HOULSBY, G. T., BURD, H. J., MILLIGAN, G. W. E., JEWELL, R. A. & BROCKLEHURST, C. J. (1990) Research at Oxford on reinforced unpaved roads, 1989/90. *OUEL Report* No.1820/90.

MILLIGAN, G. W. E., BUSH, D. I. & EARL, R. F. (1990) Photoelastic observations of pullout tests on geotextiles and geogrids. *Geotextiles, Geomembranes and Related Products, Proc. 4th Int. Conf.*, Ed. Den Hoedt, G., Balkema, Rotterdam, pp 747-751.

PALMEIRA, E. M. & MILLIGAN, G. W. E. (1990) Large-scale pullout tests on geotextiles and geogrids. *Geotextiles, Geomembranes and Related Products, Proc. 4th Int. Conf.*, Ed, Den Hoedt, G., Balkema, Rotterdam, pp 743-746.

PEDLEY, M. J., JEWELL, R. A. & MILLIGAN, G. W. E. (1990) A large scale experimental study of soil-reinforcement interaction. *Ground Engineering*, 23(6), July/August (part 1) and 23, No.7, September (part 2).

SWEET, J. L. K. & MILLIGAN, G. W. E. (1990) Pipebursting: model tests. *Proc. 6th Int. Conf. on Trenchless Technology*, Osaka.

PEARSON, A. E. & MILLIGAN, G. W. E. (1991) Model tests of reinforced soil in conjunction with flexible culverts. *Performance of Reinforced Soil Structures*; McGown, A., Yeo, K.C. and Andrawes, K.Z. (Eds.), Thomas Telford, London, pp 365-369.

O'MAHONY, M. M. & MILLIGAN, G. W. E. (1991) Use of recycled materials in sub-base layers. *Transport Research Record No.1310, Materials, Construction and Maintenance, Construction Innovations*, pp 73-80, transportation research Board, Washington.

NORRIS, P. & MILLIGAN, G. W. E. (1991) Field instrumentation for monitoring the performance of jacked concrete pipes. *Proc. 3rd Int. Symp. on Field Measurements in Geomechanics*, Oslo, Ed. Sorum,G., Balkema, Rotterdam, 241-250.

MILLIGAN, G. W. E. & NORRIS, P. (1991) Concrete jacking pipes, the Oxford research project. *Proc. 1st Int. Conf. on Pipe Jacking and Microtunnelling*, Pipe Jacking Association, London.

O'MAHONY, M. M. & MILLIGAN, G. W. E. (1991) Recycling of construction waste. *Waste Materials in Construction*, Ed. Goumans,J.J.J.R., Van der Sloot, H.A. and Aalbers, T.G., pp 225-231, Elsevier Publications, Netherlands.
