

Publications by Dr J. A. Skipper

SKIPPER, J. A. (1999) The Stratigraphy of the Lambeth Group (Palaeocene/Eocene) of south east England. *PhD Thesis*, Imperial College, University of London.

SKIPPER, J. A. (1999) Report of Field Meeting to Castle Hill, Newhaven, & Telscombe Cliffs, Sussex. *Tertiary Research Group website publication at*
<http://www.trg.org/reports/newhaven.htm>

PAGE, D., & SKIPPER, J. A. (2000) Lithological Characteristics of the Lambeth Group. *Ground Engineering*. 33: 2.

GALE, A. S., PALIKE, H., HARDENBOL, J., HUGGETT, J., LAURIE, E. & SKIPPER, J. (2001) Milankovitch Cyclicity and Sea-Level Change in the Late Eocene-Early Oligocene Interval; Evidence for Rapid and Extensive Antarctic Glaciation at 33.5 Ma? Cambridge Publications website publication at:
eprints.soton.ac.uk/41869/01/eug11_2001_p100.pdf

SKIPPER, J. A. (2004) Rapporteur's Report, Session 5, Skempton Memorial Conference: The Influence of Geology on Civil Engineering, *Ground Engineering* 37(3). 48.

SKIPPER, J. A., FOLLETT B., MENKITI C. O., LONG M. & CLARK-HUGHES J. (2005) The Engineering Geology and Characterization of Dublin Boulder Clay. *The Quarterly Journal of Engineering Geology and Hydrology*, 38, 171-187.

SKIPPER, J. A. (2005) Understanding the geology of the Lambeth Group of SE England. *Coming To Grief In The Guildford Formation. - An Engineering Geology Of Perth Workshop. Abstracts. Australian Geomechanics Society.*

SKIPPER, J. A. (2007) The Lambeth Group of SE England, lessons for the soils of Perth? *Australian Geomechanics*. 32, (3), 21-31.

SKIPPER, J. A., LAURIE, E., & LEWIS, S. (2008) Recent lithological findings in the Lambeth Group and Thanet Sand Formation of east London. Accepted abstract for: *Engineering Geology And Experience In the East London And the Thames Gateway Area*, Engineering Group of the Geological Society, London.

SKIPPER, J. A., NEWMAN, T. & MORTIMORE, R. (2008) The Engineering Geology of the Lee Tunnel, east London, UK. Accepted abstract for: Euroengeo, (International Association of Engineering Geology Conference) Madrid.

SKIPPER, J. A. (2008) Project Specific Geological Training - a new Tool for Geotechnical Risk Remediation? Accepted abstract for: Euroengeo, (International Association of Engineering Geology Conference) Madrid.
